**Fisher Tank Company Wins Tank of the Year Award**

*Chester, PA, October 23, 2023* Fisher Tank Company, founded in 1948 in Chester, PA, with operations in Leesville, SC, Cropwell, AL, and Atascadero, CA, received a 2022 Steel Product of the Year award from the Steel Tank Institute/Steel Plate Fabricators Association (STI/SPFA).

Fisher Tank Company won Product of the Year in the Standpipe Water Storage category for a 1,500,000 gallon standpipe built for the City of Montrose, CO. Working as a subcontractor to Ridgway Valley Enterprises, a commercial contractor based in Montrose, Fisher Tank fabricated and erected the 40' diameter x 115' height water storage tank. Fisher Tank's scope included design and installation of the tank foundation as well as application of the tank's interior and exterior coating systems. Emblazoned with the City of Montrose's logo, the gleaming white Sunset Mesa water tank crowns the city's expansive athletic complex and serves as a great landmark for the community.

In October, 2023, Jim Viale, Fisher Tank Company's Western Region Area Manager, was honored to be in Montrose to present the STI/SPFA Product of the Year award to the City of Montrose and to Ridgway Valley Enterprises. Accepting the award for the City of Montrose were Dave Bries, Facilities Manager, and Josh Sickie, Engineer. John McCollum, Owner, accepted the award on behalf of Ridgway Valley Enterprises.

Fisher Tank Company provides design, fabrication, construction, maintenance and repair for field erected welded steel storage tanks for customers in a variety of industries, including municipal water storage, bulk liquid storage terminals, power generation, chemical & petrochemical production and storage, military and commercial fueling, manufacturing, mining and other applications.

Steel Tank Institute/Steel Plate Fabricators Association is a trade association representing fabricators of steel construction products and their suppliers. Member companies produce steel storage tanks, field erected water tanks, pressure vessels and heat exchangers, and pipe and pipelines, for customers from a variety of industries.
